

JAYA MADHURI G

Frontend Developer

Chennai, Tamil Nadu, 600103 | +91 6300497655 | jayamadhurirkv1@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with 4.9+ years of experience building responsive, high-performance Angular applications in the banking domain. Skilled in translating business requirements into scalable technical solutions, optimizing cross-browser performance, and mentoring junior developers. Proven track record of improving delivery speed, code quality, and user experience through modern frontend engineering practices.

TECHNICAL SKILLS

- Frontend:** HTML, CSS, SCSS, JavaScript, React.js, React Hooks, Angular 15, Reactive Forms, NgRx, RxJS, Bootstrap, Material UI, Redux
- Backend:** Node.js, Express.js
- Databases:** SQL, MySQL
- Mobile:** Android hybrid apps with Cordova, internal CBX framework
- Tools & DevOps:** Jenkins, OpenShift, Harbor, Git, JIRA, ServiceNow, Chrome DevTools, Lighthouse
- Practices:** RESTful API integration, component libraries, performance optimization

WORK EXPERIENCE

Angular Developer — Intellect Design Arena Ltd, Chennai *Dec 2021 – Present*

Full-time | 4.9+ years total experience | Web & Mobile Development in Banking Domain

- Maintained responsive, production-grade web applications using **Angular 15** for core banking clients, improving key page load performance by **20%** through optimized component architecture.
- Designed and implemented reusable **Angular UI component libraries** aligned with modern design standards, cutting new-feature development time by **15%**.
- Partnered with **SMEs** and backend engineers to translate business requirements into technical solutions, reducing integration defects by **25%**.
- Optimized frontend performance and ensured cross-browser compatibility using **Chrome DevTools and Lighthouse**, eliminating UI lag and improving load times by **20%**.
- Led **code reviews**, performance tuning, and production debugging, reducing post-release defects by **30%** and improving overall code maintainability.
- Integrated **RESTful APIs** and asynchronous data flows using **RxJS observables**, ensuring real-time updates across banking modules.
- Implemented dynamic form validation using **Angular Reactive Forms**, improving data accuracy and reducing input errors by **15%**.
- Developed and maintained Android applications over 1.5 years as a Mobility Developer using **Cordova** and the internally built **CBX framework** within the banking domain.
- Resolved client-reported issues across mobile and web platforms, reducing average support turnaround time by **20%**.

PROJECTS

ChatterJoy — Real-Time Chat Application *Apr 2025*

- Built a real-time chat application using **React.js**, **Next.js** (App Router), **Firebase** (Auth, Realtime DB), and **WebRTC**, enabling instant messaging and live voice calls.
- Implemented rich interaction features including emoji reactions, message editing, view-once photos, and voice messages, increasing user engagement.
- Added personalization features (chat backgrounds, profile customization) and contact management with smart search and blocking.

Web Performance Analyzer *Jun 2025*

- Built a **React + TypeScript** dashboard displaying load metrics, resource breakdown, request waterfall, and console errors for real-time site analysis.
- Developed a **Node.js/Express** API with **Puppeteer** and Chrome DevTools Protocol to capture timings, network data, and screenshots.
- Added performance scoring, network throttling, batch URL analysis, and Firebase-authenticated report history sharing.

ACHIEVEMENTS

- Received **SPOT Award** for implementing **biometric authentication** within the Cordova framework, significantly enhancing app security in the banking domain.

EDUCATION

Bachelor of Technology, Electronics & Communication Engineering — 8.1 CGPA *2021*

Rajiv Gandhi University of Knowledge Technologies, RK Valley, Kadapa, Andhra Pradesh

Pre University Course (PUC) — 8.9 CGPA *2017*

Rajiv Gandhi University of Knowledge Technologies, RK Valley, Kadapa, Andhra Pradesh
